Where did you hear about the WHSA Summer High School Intern Program?

Activities and Interests: Previous intern or job experience is not a requirement, but we do want to know how you spend your summers and after school hours. Please list any previous internships, part-time or summer jobs, and activities you participate in, either school related or outside school.

List any other experiences that you think might be relevant.

What are your plans for your first five years after high school?

Assume for a minute that you are selected for an internship in the WWSA this summer, and complete the following sentences:

At the end of the summer, my aquarium internship will have been successful for me if. . .

At the end of the summer, I will be disappointed in my aquarium internship if. . .

Personal Statement: The program is designed for mature, motivated students:

- * interested in learning
- * interested in aquarium operations or animal husbandry
- * comfortable working with and learning from adults
- * interested in working with and learning from other interns

With the selection criteria in mind, what else would you like us to know about you, your interests and abilities, and your reasons for wanting to do an internship in the aquarium? Please attach a personal statement -- this does not have to be lengthy -- just write enough to give us a sense of who you are and why you have decided to apply for an aquarium internship.
